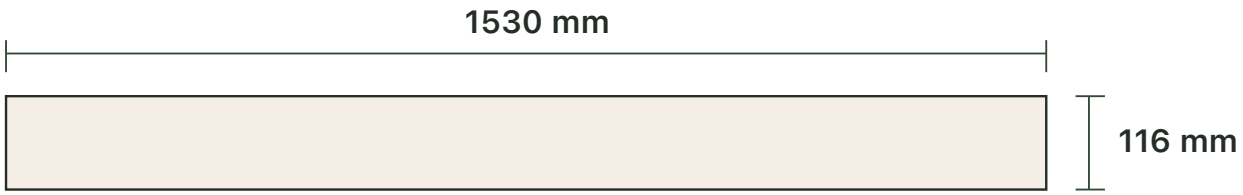
HANDYHACK

Example plinth

EXAMPLE · FOR PRACTICE

FINISHED PANEL · FRONT VIEW



Left end as seen from the room

CUT LIST

1 panel · 1530 × 116 × 16 mm

Natural oak finish. Finish the visible edges and seal any exposed cuts as the board maker recommends.

SHOPPING LIST

One finished board and matching plinth clips for your cabinet legs.

FIT THE PANEL

1. Dry-fit the panel at the intended depth. Mark the room-left end and the back so the clip layout stays in the right orientation.
2. Use the clip maker’s guide to mark and attach the clips on the back at the matching leg positions.
3. Press the panel onto the legs. Check that the fronts move freely and you can remove the panel for access.
